Monthly airdrops to our verified holders will take part.

All holders are able to mint for free for every fox they hold in projects associated with Athletic Foxes Club except for Zombie Athletic Foxes Club Mutant Athletic Foxes Club.

UTILITY

Athletic Foxes Club, Zombie Athletic Foxes Club, "AFC's Companion", Mutant Athletic Foxes Club will be a future token of access to our specially designed blockchain game where holders can hangout.

WALLETS

15% of total revenue will be sent to the community wallet where the community will decide where to use it. The community wallet is also known as charity fund wallet. 75% of the total revenue will be sent to the DEV wallet, DEV wallet is the wallet where all of the money that will be spent for the project's expenses including our blockchain game once the 15% of supply was minted).

SUPPLY:

Athletic Foxes Club will be consisted of 3,333 avatar varieties from over 100 traits and attributes. The total token supply for other project's companion will be composed of 50,000+ including the 3,333 supply of AFC.

POLYGON

Polygon combines the best of Ethereum and sovereign blockchains into a full-fledged multi-chain system.

Polygon solves pain points associated with Blockchains, like high gas fees and slow speeds, without sacrificing on security. This multi-chain system is akin to other ones such as Polkadot, Cosmos, Avalanche etc, but with at least three major upsides:

- It is able to fully benefit from Ethereum's network effects
- It is inherently more secure
- It is more open and powerful

CHALLENGE

Ethereum is the blockchain development platform of choice, but it has limitations.

- Low Throughput
- Poor UX (gas, delayed PoW finality)
- No sovereignty (shared throughput/clogging risk, tech stack not customizable, governance dependence)

SOLUTION

Polygon - a protocol and a framework for building and connecting Ethereum-compatible blockchain networks.

- One-click deployment of preset blockchain networks
- Growing set of modules for developing custom networks
- Interoperability protocol for exchanging arbitrary messages with Ethereum and other blockchain networks
- Modular and optional "security as a service"
- Adaptor modules for enabling interoperability for existing blockchain networks

Polygon has four co-founders: Jayanti Kanani, Sandeep Nailwal, Anurag Arjun, and Mihailo Bjelic. Jayanti Kanani, the CEO of Polygon, has a decade of experience in software development and data science.

Why Invest in Athletic Foxes Club?

NFTs have proven to be a profitable form of investment owing to some of the following reasons:

- Creates Value for the Tokenized Asset:** NFTs create a medium whereby physical objects like art works can be tokenized, thus eliminating the duplication of such art work and limiting ownership to the artist.

How do you make money with NFTs?

You can stake your NFTs to earn rewards and incentives on various sites. A final way to indirectly make money with non-fungible tokens is through investing in startups. If there's one thing that NFTs have proven is that they're not a quick-passing crypto trend.

Will Athletic Foxes Club and other NFTs go up in value?

"It can go up; it can go down. It's like any type of contemporary art: The values aren't fixed."

What happens when you buy Athletic Foxes Club or any other NFTs?

Essentially, NFTs are like physical collector's items, only digital. So instead of getting an actual oil painting to hang on the wall, the buyer gets a digital file instead. They also get exclusive ownership rights. That's right: NFTs can have only one owner at a time.
